

The 21st Century Slate Roof

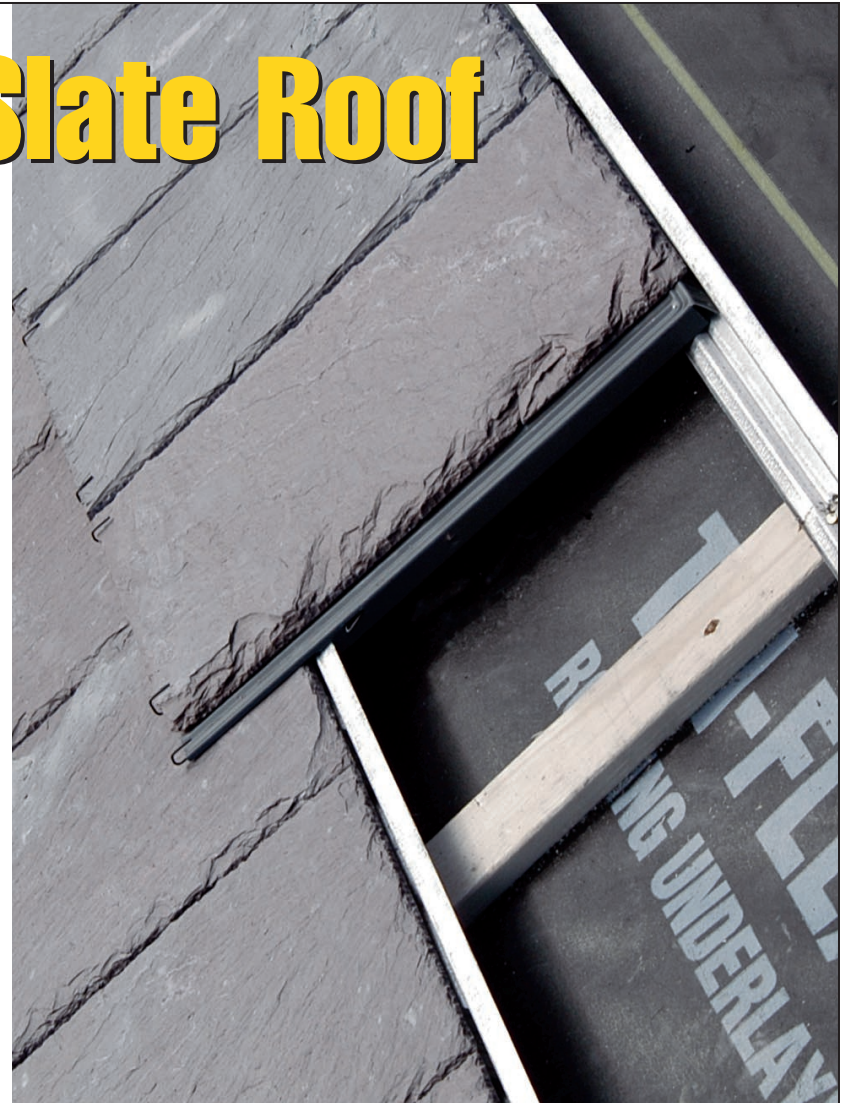

Slate, the natural stone roof has long been revered for its longevity and timeless style. Today, slate makes even more sense in creating greener, more sustainable structures. Nu-lok leads the way with lighter roofs that use less material, helps optimize A/C and heating energy consumption, and provides an elegant integrated solar energy solution.

- Slate is a *100 year natural roof*.
- Nu-Lok™ mounts genuine slate on an patented batten support structure, creating an *insulating air gap*.
- The Nu-Lok™ system typically weighs less than six pounds per square foot.
- Nu-Lok™ creates a *walkable* slate roof.
- Install-able by all roofing contractors. (*Learn more at Nu-Lokusa.com*)

Nu-Lok SolarRoof™ Solar Panel Option

- Nu-Lok™ System covered by a *50 year warranty**
- Features *Greenstone Slate®* Vermont Architectural Roofing Slate.
- *Natural environmental sustainability.*
- Nu-Lok SolarRoof™ *integrated solar panel expandability.*
